AREA ATTRACTIONS

BIKING

The Lost Sierra is known for its world-class road/gravel cycling and mountain biking. The quiet roads and surrounding forest land provide miles of road/gravel routes and singletrack on a variety of terrain.

Just a short drive from Nakoma, mountain bikers can find plenty of intermediate-to-expert terrain in the Lakes Basin Recreation Area, including the Mills Peak trail with tremendous views from a fire lookout at 7,340 feet.

The peaks of the Sierra Buttes are the iconic backdrop to the famed Downieville trail system, which starts at Packer Saddle. To learn more about the trails of Downieville check out www.YubaExpeditions.com.

A number of riding options are available in Quincy, about 30 minutes west of Nakoma. The Mt. Hough Trail is a 14-mile descent best done as a shuttle ride. At the base of Mt. Hough is the South Park trail system that links to the Cascade Trail along Spanish Creek. To learn more about the trails around Quincy, check out www.YubaExpeditions.com.

Mountain biking is not permitted in designated wilderness areas of the Plumas and Tahoe National Forests, or on the Pacific Crest Trail.

BOATING

Water sports abound in Plumas County with more than 100 lakes and 1,000 miles of streams. Boating, water skiing, jet skiing, sailing, kayaking, paddle boarding, windsurfing, and swimming are among the more popular water sports available at the larger lakes, including Davis, Gold, Frenchman and Bucks. Lake Davis does not allow jet skiing or water skiing.

Kayak, boat, and canoe rentals are available at J&J Grizzle Store: <https://Portola-CA.com/Water-Toys>

BREWING LAIR

Tucked away in the woods near Blairsden you'll discover the Brewing Lair, Eastern Plumas County's first microbrewery. Look for a dirt driveway about 1,000 feet East of the 70/89 junction in Blairsden on the north side of Highway 70.

Typical dates for camping are Memorial Day to Labor Day weekend. Winter brings snow and 100 miles of groomed snowmobile trail plus snow-play, cross-country skiing and sledding.

CAMPING

Plumas County boasts hundreds of public campsites and privately owned RV campgrounds. Many of them in alpine lake and forested, streamside settings. There are U.S. Forest Service campgrounds, PG&E campgrounds, and California State Park campgrounds. Locations include Graeagle/Cromberg, Lakes Basin, Portola/Sierra Valley, Frenchman Lake, and Lake Davis. Quincy, Bucks Lake and more.

CHRISTMAS TREE PERMITS

Permits are \$10 (*check with US Forest Service for current fees*) and include a map of tree cutting areas, as well as safety information and helpful tips. Two permits are allowed per household; please read the instructions on your permit carefully as there are no refunds. Because cutting areas may be quickly limited by snow, plan to get your tree early.

For more information, contact the Forest Service at [530-836-2575](tel:530-836-2575).

FISHING

Plumas County's 1,000 miles of streams and more than 100 lakes of the Feather River watershed make for a varied fishery. Whether you're a fly fisher or prefer to use lures and bait, you'll find plenty of places to reel them in. Native rainbow trout are the predominant game fish, but German browns and brook trout also have been established in many areas. A special strain of rainbow, known as Eagle Lake trout, is found in many of the major lakes. Other game fish include Mackinaw (lake trout), kokanee salmon, largemouth and smallmouth bass, bluegill and catfish. Lakes are open to fishing year round and the stream season usually opens on the last weekend of April and closes in the middle of November. Some streams are not open until the end of May and close at the end of September. Some waters have special barbless catch-and-release provisions.

FLY FISHING

Whether you're a fly fisher or prefer to use lures and bait, you'll find plenty of action and surprisingly large trout in small creeks. The most common aquatic insects of the Feather River are several species of mayflies, caddis flies and stoneflies. The main sections of the Feather River are the North Fork and Middle Fork. The Middle Fork is a federally listed Wild and Scenic River from the outflow of Sierra Valley that runs adjacent to Nakoma. The wild river section downstream from the Quincy-La Porte Road bridge is accessible by steep foot trails and provides excellent fishing for strong hikers. Upstream, in the more easily reached stretch near Highway 70 east of Quincy, the Middle Fork holds some nice, if sometimes angler-shy, rainbows and browns. Fall fishing is particularly good.

HIKING

There is no better way to enjoy the beauty of the Lost Sierra than by exploring it on foot. Whether you take a leisurely stroll or a strenuous hike, you'll experience the magnificence of the Sierra Nevada along an extensive system of hiking trails.

For detailed information and maps of available trails in the area, call the Plumas National Forest, Beckwourth Ranger District at [530-836-2575](tel:530-836-2575) or the Tahoe National Forest, Sierraville Ranger District at [530-994-3401](tel:530-994-3401). If you're going on one of the more remote trails, it's best to bring along a compass and a Forest Service map.

HIKING (CONTINUED)

For topo maps and further information on specific hikes in Plumas County check out wildernet.com. For information about trail building/restoration contact Sierra Buttes Trail Stewardship at www.SierraTrails.org.

The rafting season runs approximately from January to April or May, depending on the flow. By early July, flows are low enough that inner tubes and air mattresses are the usual mode for short float trips on the upper stretches only.
